MISSION & APPROACH

Our mission is to restore individuals to their optimal level of independence and well-being following temporary or permanent disability. Led by Physical Medicine & Rehab physicians, our multidisciplinary team (PT, OT, ST, nurses, social workers and dietitians) delivers customized goals tailored to individual needs. We utilize the latest technology to treat patients medically, socially, emotionally, and vocationally.

THERAPY SERVICES & OBJECTIVES

Functional Gains: Improve strength, balance, range of motion, cognition, memory, speech, and swallowing.

Skill Building: Training for Activities of Daily Living (bedroom/kitchen/bath), wheelchair/mobility options, and prosthetic preparation.

Medical & Support: Includes wound care, pain management, Neuro-Psych counseling, dedicated hospitalists to manage medical needs 7 days a week, and extensive family education.

Discharge Planning: Coordination of home care, outpatient support, and community assistance.

OUR PHYSICIANS:
Drs. John Nyboer
Jyoti Pham, &
Scott Nyboer.

FACILITY HIGHLIGHTS

- State-of-the-art gymnasium, and private, spacious rooms with overnight guest accommodations.
- Stimulating environment featuring panoramic views, a fountain park, and atrium dining.
- Conveniently located within walking distance to restaurants and shops.

ADMISSION CRITERIA

To qualify for inpatient rehabilitation, patients must:

- Have a new condition requiring physician supervision and 24-hour nursing.
- Be medically stable and physically/mentally capable of active participation.
- Be able to tolerate three (3) hours of therapy per day.
