

WHY DAY NEURO?

After hospitalization following a neurologic episode, one of the most valuable steps a patient can take is to participate in our Day Neuro Program. The program exists to provide treatment beyond inpatient rehabilitation and to help ease the transition from the inpatient or acute care setting to life back at home. Our innovative outpatient services are aimed at improving:

- Orientation, Balance & Functional Mobility
- Information Processing & Problem Solving
- Speech Intelligibility & Conversation
- Physical Performance & Endurance
- Safety & Independence in Daily Activities

WHAT TO EXPECT:

To achieve the best results for each Day Neuro patient, we create an intensive, customized therapy plan that addresses the unique goals and needs of the patient utilizing the following:

- Individualized treatment sessions
- Single sessions or half-day formats
- Integration of neuromuscular re-education techniques to increase function
- Real-world outings in nearby Perkins Rowe to assist in resuming desired roles and routines
- Family training to improve safety in daily activities

Your services and frequency will be determined following an initial evaluation.

INTERDISCIPLINARY TEAM

The Day Neuro brings together an entire team of neurological experts to provide our patients comprehensive, rehabilitative services:

- Rehabilitation Physicians (Physiatrists)
- Physical Therapists
- Occupational Therapists
- Speech/Language Pathologists
- Neuropsychologists
- Social Workers
- Recreational therapy specialists
- Dietitians

CONDITIONS TREATED

The Day Neuro program is designed for individuals who have experienced a life-changing neurological incident including, but not limited to:

- Stroke or Aneurysm
- Traumatic Brain Injury (TBI)
- Spinal Cord Injury
- Brain/Spinal Tumor
- ALS
- Parkinson's Disease
- Guillain-Barre Syndrome
- Multiple Sclerosis (MS)
- Muscular Dystrophy

ADVANCED TRAINING

- Neuro-Integrative Functional Rehabilitation and Habilitation (Neuro-IFRAH®)
- Neurodevelopmental Treatment (NDT)
- VitalStim and Ampcare for treatment of swallowing difficulties
- LSVT BIG & LSVT LOUD for Parkinson's
- Kinesio Taping® for muscle and joint stability

DAY NEURO PROGRAM

The NeuroMedical Center Rehabilitation Hospital's Day Neuro Program offers specialized daily therapy to patients with neurological impairments to help them regain their independence and maximize their participation at home, work, and the community. Patients participate in intensive rehabilitation during the day and return home after treatment.

The Day Neuro Program is located on the 5th floor of The NeuroMedical Center.
